### **Basic Information - Transferring A License**

The method of transferring a license is the same for all Touchstone Technologies products. For demonstration purposes WinEyeQ will be used to explain the license transfer procedure.

At the time of installation there are two options for licensing WinEyeQ. The first is to have a new key issued from Touchstone Technologies, and the second is to transfer a license from an existing WinEyeQ application to the newly installed version of WinEyeQ. Touchstone's software licenses are fully transferable from PC to PC within a customer's physical location. To transfer a license to a different location, please contact Touchstone Technologies at (267) 222-8687.

A floppy diskette or USB memory device is required to transfer a license.

There are three basic steps in transferring a license:

- Initialize transfer media on the PC with newly installed WinEyeQ.
- Export license from the PC with the originally installed WinEyeQ.
- Import license to the PC with newly installed WinEyeQ.

Note: Touchstone Technologies licenses will have to be re-issued if:

- The original installation directory of WinEyeQ is:
  - Copied or moved to a new directory on the original PC.
  - Copied or moved to a different PC.
  - o Renamed
- One of the hidden files (deltapts.ckn or deltapts.inf) is deleted or modified.
- The license service (crypserv.exe) is stopped or uninstalled.

After a new installation is finished and the application is run for the first time an 'Authorizing WinEyeQ' screen will appear, click on the 'Advanced' button, an expanded dialog will be displayed:

Authorizing WinEyeQ		×
	Site Code:	D6FA 036E 6B97 B024 91
Charles and the	Authorization Code:	
		Authorize WinEyeq
		To obtain the authorization code for this application, please copy the site code above and visit our website at: www.touchstone-inc.com and select the "Support" menu option followed by the "Request Demo Key" option.
		Please note that we require valid corporate
		information prior to issuing an authorization code and cannot send authorization codes to web portals.

		Import License

Press the 'Import License' button to begin the license transfer procedure.

## Step One - Import License, Media Initialization

The first step of the 'Import License' transfer requires initialization of a diskette or USB device that will be used as the 'License Transfer Media'.

Import License - Step 1		×
	This process will initialize a floppy disk or USB device as a "License Transfer Media". The media must be "FAT" (file allocation table) formatted. Please insert the formatted "License Transfer Media" into an appropriate device and select its location below. After completing this process, please press the "Next" button. If you have previously completed this step, check here and press the "Next" button. "License Transfer Media" device location:	
	< Back Next > Cancel	

To initialize the transfer media, select the drive to be used as the transfer device, insert the transfer media and press the 'Next' button.

**Note:** If you have completed this step from a previous execution of WinEyeQ and already have the initialized transfer media, click the checkbox and then click the 'Next' button.

When step one is complete, the transfer media is initialized.

The Import License step two dialog will then appear:

Import License - Step 2		×
	License Transfer Media successfully initialized. Please remove the License Transfer Media from its current location. Note - For USB devices, please use the correct 'Unplug' procedure for this type of device. After removing the media, please take it to the installation you wish to export the license from and follow the procedures detailed there. After completing the license export process from the existing installation, please press the 'Next' button to continue with the import process.	
	< Back Next > Cancel	

The next step is to eject or unplug the transfer media and take it to the PC that has the license you want to remove.

**Note:** For USB devices please follow the correct unplug procedure for your device.

## **Step Two – Export License**

On the PC that you have selected to remove the WinEyeQ license, click on the 'Help' menu and then select 'Licensing Information'.

The Following dialog will appear:

About Your WinE	yeQ License	×
Type: Restrictions: Term:	Professional Version Unrestricted Never expires.	WinEyeQ Touchstone Technologies
Information:		Upgrade License
	,	Close
		<u>A</u> dvanced >>

Next click on the 'Advanced' button to expand the dialog:

About Your Wint	yeQ License	X
Туре:	Professional Version	WinEueO
Restrictions:	Unrestricted	Touchstone Technologies
Term:	Never expires.	
Information:		Upgrade License
	,	Close
		Hide <<
You may expo to another ins press the "Ex	ort the license from this installation tallation. To export the license, port License'' button.	
WARNING: T application up	his operation will disable this on completion of the transfer.	Export License

Now click on the 'Export License' button.

A warning dialog will be displayed next. This box has a warning to read the procedure carefully and that the version of WinEyeQ running will be disabled after the procedure is completed.

If you are certain you want to transfer this license, press 'Yes', if not, press 'No'.

The existing WinEyeQ application will not be uninstalled nor will any WinEyeQ files be removed from the WinEyeQ directory, the software will just be disabled. Later if you wish, you can re-enable the application with a new license from Touchstone or with a WinEyeQ license transferred from another PC.

Step one of the export procedure displays the following dialog:

Export License - Step 1		×
	To begin the license export process, please install the new application on the PC you wish to transfer the license to. After installing the new application, you must run it to initialize a "License Transfer Media" device. Please press the "Advanced" button on the "Authorization" dialog and then press the "Import License" button. Follow the directions detailed in steps 1 and 2 of the import process. After you have initialized the "License Transfer Media", please press the "Next" button.	
	< Back Next > Cancel Help	

Click the 'Next' button.

Export License - Step 2		×
	Insert rhe "License Transfer Media" into an appropriate device. Chose the device location below and press the "Next" button. "License Transfer Media" device location:	
	< Back Next > Cancel He	elp

Step two of the license export procedure displays the following dialog:

Insert the transfer media that was initialized from 'Step One – Media Initialization', select the drive to be used as the transfer device and press the 'Next' button.

When the license has been successfully	exported, the following	dialog will appear:
--	-------------------------	---------------------

Export License - Step 3	×
	License successfully exported. Please remove the License Transfer Media from its current location. Note - For USB devices, please use the correct 'Unplug' procedure for this type of device. After removing the media, please take it to the installation you wish to import the license to and follow the procedures detailed there. Please press the "Finish" button to complete the transfer.
	< Back Finish Cancel Help

When the 'Finish' button is pressed, the application will terminate. This completes the license export.

Remove and take the 'License Transfer Media' to the newly installed WinEyeQ.

**Note:** For USB devices please follow the correct unplug procedure for your device.

### **Step Three – Install exported license**

The PC with the newly installed version of WinEyeQ should still have the following screen displayed, 'Import License – Step 2':

After the export procedure is complete, and you have the license on the transfer media, insert or plug in the media and then press the 'Next' button.

Select the proper 'License Transfer Media':

Press the 'Next' button when done.

When the license has been successfully imported, the following dialog will appear:

Import License - Step 4		×
	License successfully imported. Please remove the License Transfer Media from its current location. Note - For USB devices, please use the correct 'Unplug' procedure for this type of device. Please press the "Finish" button to complete the transfer.	
	< <u>B</u> ack <b>[Finish]</b> Cancel	

The newly installed WinEyeQ is now fully enabled and ready to run when you press the 'Finish' button.

## **License Transfer Instruction Chart**

Action	New Installation	<b>Existing Installation</b>
1.Install New Software	Select the machine on which you would like to install the new instance of the product and follow the installation instructions. Once installed, run the application and the licensing dialog will appear.	
2. Initialize License Transfer Media	When the new installation asks for the Authorization code, press the 'Advanced' button then, press the 'Import License' button. This will bring up a dialog that asks you to initialize a 'License Transfer Media Device'. This device may be a diskette or USB device.	
	Enter the letter of the drive where the transfer media is located and press the 'Next' button. Once you have pressed the 'Next' button, you may remove the License Transfer Device. You must then take that diskette or USB device to the PC that has the license you want to export.	

	New Installation	Existing Installation
Action		
<b>3. Export License</b>		Run the application on the PC that has the license you want to export, go to the Help menu and press Licensing Information.
		Press the 'Advanced' button to reveal the advanced options. Once visible, press the 'Export License' button.
		Follow the step-by-step directions to export the license onto the License Transfer Media Device.
		Remove the License Transfer Media Device. The existing installation is now deactivated.
		Return to the new installation.
4. Import License	Insert your License Transfer Device into the appropriate device. Follow the instructions to import the license. The new installation is now activated.
